

BOOKINGS ARE ESSENTIAL

Garvan invites you to our next free public seminar:

The Immune System in Health and Disease

**What goes wrong in the immune system that can lead to diseases like Type 1 Diabetes, Rheumatoid Arthritis, Chronic Fatigue Syndrome and Asthma?
Are there links between diet and immune function? Leading researchers from the Garvan discuss the latest findings and treatments for these autoimmune conditions.**

Our expert panel of speakers will discuss these questions and more.

Professor Antony Basten – Senior Principal Research Fellow, Immunology & Inflammation, Garvan Institute

Dr Shane Grey – Senior Research Fellow and Group Leader, Gene Therapy and Autoimmunity Group, Garvan Institute

Kendle Maslowski – PhD scholar, Immunology & Inflammation, Garvan Institute

Dr Ute Vollmer-Conna – Head of the Department of Human Behaviour, School of Psychiatry, University of NSW

Associate Professor William Sewell – Immunology and Inflammation Program, Garvan Institute of Medical Research, St Vincent's Hospital and University of New South Wales

Tuesday 16th February
10am – 12pm (doors open at 9am)
NAB Auditorium, Garvan Institute
384 Victoria Street, Darlinghurst
– enter via Burton Street door
